**IOT SOLUTIONS**  
WORLD  
CONGRESS  
BARCELONA 25-27 OCT 2016

**Emphasis Telematics** participates at

**IOT SOLUTIONS WORLD CONGRESS 2016**

**25-27 October 2016 | Fira Barcelona**

Find out about our turnkey solutions :

#### **e-glove**

**Accurate design of  
manual manufacturing  
processes**

Converts operator hand movements / applied forces to data. Data filtering and aggregation provides accurate business information which is used for ergonomics assessment, production cycle measurement and safety supervision.

#### **e-mining**

**Increase visibility &  
efficiency in mining  
operations**

Data is automatically collected from sensors mounted on mining assets. Data filtering and aggregation provides mining field visibility. Operations efficiency / cost effectiveness, safety and product quality are improved through the use of analytics tools.

**Emphasis Telematics** is an M2M partner of **Deutsche Telekom AG** and provides global solutions in mining and industrial production, logistics, and maritime transportation.
